Experience

Various Freelance Clients - Onsite and Offsite

6/2005 - Present

Freelance PowerPoint and graphics work for a variety of clients. This includes complete presentation creation from inception to completion; creation of templates for entire Microsoft Office suite; creation of effective and creative motion graphics movies; redesign and streamlining of previously existing presentations and documents; optimization of graphics for print, web and presentation use; vertical brand integration into all facets of business; photo manipulation; logo design; creation of marketing materials and business collateral; website design.

CBS Radio, New York, NY

3/2006 - 7/2007

Graphic Designer

Worked for the in-house creative agency. Responsibilities included management of diverse projects, including innovative sales presentations, Flash pieces, banner ads, sell sheets, and website design used to convey marketing message custom tailored to each individual advertiser's needs. Other responsibilities include unique template creation; photo research and manipulation; Internet research and data mining; audio and video editing; and brainstorming of new ideas with marketing department counterparts.

CMP Media, LLC, Manhasset, NY

12/1999 - 6/2005

Infographics Specialist

Creation of templates for Microsoft Word datasheets and Microsoft PowerPoint in a multi-platform environment; streamlining of graphics for use within datasheets and presentations using Adobe Photoshop and Adobe Illustrator; maintaining integrity of brand logo, and branded look and feel; creation of charts using Adobe Illustrator for use within datasheets and presentations; creation of custom art, icons and marketing materials for busy marketing and events departments; creation of research reports using QuarkXpress, Adobe InDesign and Adobe Illustrator; use of Adobe Acrobat to create PDF documents and reports for printing and file sharing, as well as form creation; primary customer service contact regarding all research reports.
